Playing Guide:

- This melody in the key of C major is in $\frac{3}{4}$ time. The first 16 bars should be repeated – as indicated by the sets of vertical dots that appear. The term '*rall.*' that appears in bar 17 is an abbreviation for *rallentando* which indicates that the music should become gradually slower.
- Take care to ensure the chordal notes in each bar are allowed to ring out for their full value wherever possible. Experiment with different fingering options to find the most effective approach to achieving a clear and fluent sound.
